#### Comments:

Plane Creek Mill passed the half a million tonnes processed milestone on Wednesday morning.

Just under 55,000 tonnes of cane was processed for the week, bringing the season-to-date total to nearly 528,000 tonnes.

The planned 12-hour cleaning intermission on Thursday was extended by five hours to replace a failed coupling on No.1 bagasse conveyor.

There was a marginal improvement in CCS of 0.06 a unit over the previous week, taking the season-to-date CCS to 13.33 units.

The highest CCS was 16.90 units from a rake of KQ228 Plant from the Carmila productivity district.

With school holidays beginning this coming Friday (15 September), parents and carers are urged to warn children of the dangers of playing near cane railway lines.
