Comments:

Plane Creek Mill processed just over 68,000 tonnes of cane for the week, bringing the season-to-date total to nearly 800,000 tonnes.

Following an estimate review, the budget forecast has been revised down by 50,000 tonnes to 1.4M tonnes.

This coming week, there will be a 12-hour planned maintenance stop on Tuesday, 16 October.

The average weekly CCS increased by 0.53 units from the previous week – rising above 15 units for the first time this season.

The highest CCS was 17.60 units from a rake of Q253 Plant from the Carmila productivity district.

Please remember to use your train brain and always give way to cane trains. A fully loaded cane train can take up to one kilometre to stop.
