KQ228	3.8	13.57	Q200	2.9	12.47

Comments:

Plane Creek Mill processed 34,654 tonnes of cane for the week, bringing the season total to just under 320,000 tonnes.

Rainfall early in the week put a halt to crushing operations. However the growing and harvesting sector put in a commendable effort to find suitable paddocks and resume harvesting on Thursday.

Average CCS fell by 0.06 of a unit over the previous week, closing out at 13.12 units. Standover cane made up 11 per cent of the week's cane supply.

The highest CCS honour for the week was a rake of Q208 3R from the Koumala productivity area with a CCS of 16.1 units.

Motorists and haul-out operators are reminded to take care when passing over our cane rail line at occupational crossings, particularly where vision is impaired by standing cane.

Lindsay Wheeler
