Comments:

Plane Creek Mill processed 51,540 tonnes of cane for the week, bringing the season-to-date total to just over 1,230,000 tonnes.

Average CCS declined by 0.86 of a unit over the previous week, closing out at 11.75 units. The year-to-date average is now sitting at 13.97 units.

Standover cane made up approximately six per cent of the week's cane supply.

The highest CCS honour for the week was shared between a rake of Q183 3R from the Yukon productivity area and a rake of Q208 8R from the Main Line productivity area – both with a CCS of 15.40 units.

With school holidays under way, we ask parents and carers to remind children that cane trains will continue to operate into January this season.

Please keep your train brain switched on. Be alert, stay off our rail network and always give way to cane trains.
