Comments:

Plane Creek Mill's 2025 production season commenced on Saturday 6 June.

Wet field conditions limited supply to the mill. Despite the factory experiencing some settling in issues during the early part of Saturday, the 5,200 tonnes of cane supplied was processed by 1.53am Sunday morning.

The sugar production season is now in full swing and cane trains are operating 24 hours a day, seven days a week.

Motorists are reminded to take care around our cane rail network and always give way to cane trains.
