Comments:

Plane Creek Mill processed just over 48,800 tonnes of cane for the week, bringing the season total to more than 54,000 tonnes.

Ongoing fine weather with suitable drying conditions helped support cane supply to the factory.

Average weekly CCS came in at 11.88 units, and bin weights dipped slightly from the previous week

The highest CCS honours for the week were shared between a rake of Q208 fifth ratoon cane from the Main Line productivity area and a rake of Q240 second ratoon cane from the Carmila productivity area. Both had a CCS of 14.60 units.

With the production season now in full swing, motorists are reminded to take care around our cane rail network.

Please approach all crossings with caution and always give way to cane trains.
