

Weekly production figures

Wilmar Sugar Plane Creek Mill Week 8, Week ending 26 July 2025

	This week	Season to date
Cane crushed	59,813	335,750
Average bin weight	3.87	3.86
CCS	12.51	12.20

Cane variety performance for region

Variety	%	CCS	Variety	%	CCS
Q240	14.1	13.65	KQ228	3.0	13.40
Q183	26.5	13.25	SRA9	7.0	13.31
Q208	13.5	13.71	Q253	22.8	13.42
Q238	1.4	13.85	Q252	0.4	13.62

Comments:

Plane Creek Mill processed just under 60,000 tonnes of cane for the week, bringing the season total to just under 336,000 tonnes.

The factory operated at a reduced rate during the week until a mud filter shaft failure was repaired. Despite this, weekly throughput was the highest for the season to date.

Average weekly CCS came in at 12.51 units, with bin weights increasing to a weekly average of 3.87 tonnes.

Standover cane made up almost 34 per cent of the week's cane supply. High proportions of standover cane continue to impede factory throughput and crushing rate.

As the season progresses and rate steadily picks up, we are working with grower collectives to increase the supply of early morning cane.

The highest CCS honour for the week was a rake of Q208 fourth ratoon cane from the Ilbilbie productivity area with a CCS of 15.35 units.

Please keep your train brain switched on. Be alert, stay clear of our rail network and always give way to cane trains.
