

## Weekly production figures

### Wilmar Sugar Plane Creek Mill Week 10, Week ending 9 August 2025

	This week	Season to date
<b>Cane crushed</b>	62,284	457,679
Average bin weight	3.87	3.87
<b>CCS</b>	12.99	12.39

#### Cane variety performance for region

Variety	%	CCS	Variety	%	CCS
Q250	1.0	14.12	KQ228	8.2	14.88
SP80	2.7	14.18	SRA21	1.1	13.97
Q252	0.7	15.21	Q253	17.4	13.30
Q190	0.1	13.72	Q232	1.6	13.89

#### Comments:

Plane Creek Mill processed just over 62,000 tonnes of cane for the week, bringing the season total to just under 457,700 tonnes.

This was the highest weekly throughput for the season to date – particularly notable given the factory stopped for a 12-hour cleaning intermission on Tuesday 5 August.

Average weekly CCS came in at 12.99 units and bin weights averaged 3.87 tonnes for the week.

Standover cane made up almost 32 per cent of the week's cane supply. The high proportion of standover continues to impact factory throughput, lowering both CCS averages and crushing rate.

The highest CCS honour for the week was a rake of Q228 plant cane from the Koumala productivity area with a CCS of 16.20 units.

Growers and haul-out operators are reminded to take care when approaching cane rail crossings, particularly those that run across farms.
