#### Comments:

Plane Creek Mill processed just under 56,000 tonnes of cane for the week, bringing the season-to-date total to almost 752,000 tonnes.

Average weekly CCS came in at 14.75 units, with the season-to-date average at 12.99.

Average bin weights came in at a very respectable 4.01 tonnes for the week.

Standover cane made up almost 16 per cent of the week's cane supply and continues to suppress weekly CCS and crush rates.

The highest CCS honours for the week were shared between a rake of Q200 plant cane from the Main Line productivity area and a rake of SRA9 plant cane from the Carmila productivity area. Both had a CCS of 17.30 units.

With school holidays beginning this coming Friday (19 September), parents and carers are urged to warn children of the dangers of playing near cane railway lines.
