Q200	1.0	16.48	Q208	8.3	15.38

Comments:

Plane Creek Mill processed close to 68,400 tonnes of cane for the week – the highest weekly throughput for the season to date. The factory has now processed a total of 869,000 tonnes for the 2025 season.

Average weekly CCS jumped to 15.20 units – an increase of 0.44 on the previous week. The season average is now sitting on 13.27.

Average bin weights were a very respectable 4.02 tonnes for the week.

Standover cane made up just over 10 per cent of the week's cane supply and continues to suppress weekly CCS and crush rates.

The highest CCS honours for the week was a rake of SRA 9 first ratoon cane from the West Hill productivity area with a CCS of 17.90.

Families and visitors who are doing road trips over the school holidays are reminded to use their train brain and always give way to cane trains.
