Comments:

Plane Creek Mill processed just under 59,000 tonnes of cane for the week, bringing the season-to-date total to about 1.16M tonnes.

Average weekly CCS dropped by 0.59 of a unit to 15.25. The decrease was due to thunderstorms across the district early in the week. The season average is now sitting at 13.85.

Average bin weights also dipped to 3.80 tonnes for the week.

Standover cane made up just over three per cent of the week's cane supply.

The highest CCS honour for the week was a rake of Q183 plant cane from the Carmila West productivity area with a CCS of 18.40.

As we enter the final weeks of the 2025 season, members of the public are reminded to stay alert around our cane rail network.

Remember to approach all level crossings with caution and always give way to cane trains.
