Weekly production figures

Wilmar Sugar
Plane Creek Mill
Week 21, Week ending 24 October 2026

	This week	Season to date
Cane crushed	21,575	1,069,909
Average bin weight	3.91	4.0
CCS	14.53	15.21

Cane variety performance for region

Variety	%	CCS	Variety	%	CCS
Q240	12.3	14.52	Q183	25.8	14.92
Q138	5.2	12.36	Q252	3.7	15.27
SP80	11.2	13.96	Q253	8.8	13.92
Q208	23.3	15.14	SRA9	3.9	15.51

Comments:

Plane Creek Mill processed just under 21,600 tonnes of cane for the week, bringing the season total to about 1.07 million tonnes.

Rainfall early in the week brought a stop to harvesting operations, which in turn ceased crushing operations until adequate supply was achieved to re-commence early on Wednesday morning.

Average weekly CCS came in at 14.53 units – a decrease of 1.46 of a unit on the previous week.

Bin weights dipped slightly on the previous week, to average 3.91 tonnes for the week.

The highest CCS honour for the week was a rake of Q250 plant sixth ratoon from the Ilbilbie productivity area, with a CCS of 17.40 units.

Subject to weather and mill performance, harvesting operations at Plane Creek are currently expected to finish in the first week of November 2026.

As we enter the final weeks of the 2026 season, members of the public are reminded to stay alert around our cane rail network.

Remember to approach all level crossings with caution and always give way to cane trains.
