Comments:

Plane Creek Mill crushed just shy of 54,000 tonnes of cane for the week, bringing the season total to more than 201,000 tonnes.

Throughput was below budget due to a planned maintenance stop on Wednesday and reduced crush rates from a master turbine gearbox issue.

CCS levels continued improve, gaining a further 0.42 units over the previous week. The season-to-date CCS exceeded 12 units for the first time this season.

The highest CCS was 16.20, from a rake of Q253 plant cane in the Carmila productivity district.
