

## Weekly production figures

### Wilmar Sugar Plane Creek Mill Week 5, Week ending 25 July 2020

	This week	Season to date
<b>Cane crushed</b>	42,057	243,325
Average bin weight	3.80	3.74
<b>CCS</b>	12.77	12.28

#### Cane variety performance for region

Variety	%	CCS	Variety	%	CCS
Q208	29.2	12.76	Mixed	4.7	13.2
Q183	27.0	12.68	Q138	4.4	12.37
Q240	18.0	12.85	KQ228	3.8	13.29
Q242	4.8	13.0	Q238	2.7	12.34

#### Comments:

Plane Creek Mill achieved improved crushing rates for the early part of the week until widespread overnight rain stopped harvesting on Thursday. The mill crushed out Wednesday's cane on Thursday morning.

Harvesting operations resumed on Friday and there was enough cane supply for the mill to resume crushing operations early on Saturday afternoon.

CCS figures remained static throughout the week, partly because of the mid-week rainfall event.

There was a marginal improvement in bin weights earlier in the week, although wet conditions in the latter part of the week impacted the overall weekly result.

A total of 25mm of rain was recorded in Sarina for the week.
