Average bin weight	3.90	3.82
CCS	15.30	13.72

Cane variety performance for region

Variety	%	CCS	Variety	%	CCS
Q208	29.2	15.62	Q242	2.8	14.35
Q183	27.1	15.24	Q252	2.5	15.64
Q240	17.0	15.00	Mixed	2.5	16.22
Q138	7.3	14.77	Q253	2.1	15.68

Comments:

Just over 53,000 tonnes of cane were crushed at Plane Creek for the week.

Total mill throughput was below budget due to an extended planned maintenance stop to undertake repairs to No. 3 boiler.

During the stoppage, we took the opportunity to bring forward a chemical clean that had been scheduled for this coming week.

Average CCS jumped by almost half a unit this week. The 0.44 of a unit increase pushed the weekly CCS figure above 15 for the first time this season.

The weekly CCS closed out at 15.3 units and the season to date CCS is now 13.72 units.

The highest CCS was 17.90 from a rake of Q252 Plant from the Carmila productivity district.
