

## Weekly production figures

### Wilmar Sugar Plane Creek Mill Week 6, Week ending 24 July 2021

	This week	Season to date
<b>Cane crushed</b>	65,286	318,920
Average bin weight	4.04	3.90
<b>CCS</b>	13.75	12.97

#### Cane variety performance for region

Variety	%	CCS	Variety	%	CCS
Q183	27.2	13.85	KQ228	5.7	14.18
Q240	23.5	14.04	Q242	4.0	13.53
Q208	21.6	13.40	Q252	3.0	11.88
Q253	7.91	13.77	Mixed	1.5	12.99

#### Comments:

A reasonable weekly throughput of just over 65,000 tonnes brought the season total to 318,920 tonnes.

Disruptions to throughput included a broken rail in the town corridor on Monday morning and No.3 boiler ID fan relay failure later in the week.

Average bin weights exceeded four tonnes for the first time since second week in October 2019.

CCS levels continued an upward path resulting in season-to-date CCS closing out just below 13 units.

The highest CCS was 16.10 units from a rake of Q183 4th ratoon from the Mainline productivity district.

This week, there is a 12-hour cleaning intermission planned for Tuesday 27 July.
