#### Comments:

Plane Creek Mill crushed nearly 59,000 tonnes of cane for the week, bringing the season total more than 377,000 tonnes.

Throughput was disrupted on Monday to enable repairs to No. 3 mill inter-carrier and a condensate pump.

The planned 12-hour cleaning intermission on Tuesday was extended by three hours to finalise the inter-carrier repairs.

Average weekly CCS jumped by almost half a unit to 14.12. This helped to push the season-to-date CCS above 13 units for the first time this season, closing out at 13.14 units.

The highest CCS was 16.90 units from a rake of Q250 Plant from the Koumala productivity district.
