

## Weekly production figures

### Wilmar Sugar Plane Creek Mill Week 9, Week ending 14 August 2021

	This week	Season to date
<b>Cane crushed</b>	61,154	506,263
Average bin weight	3.98	3.93
<b>CCS</b>	14.48	13.48

#### Cane variety performance for region

Variety	%	CCS	Variety	%	CCS
Q183	25.9	13.4	Q242	5.8	13.17
Q208	25.0	13.35	Q253	4.1	13.60
Q240	17.8	13.85	Q232	2.3	13.54
KQ228	7.8	14.02	Q138	2.2	13.47

#### Comments:

Plane Creek Mill has passed the first half a million tonnes crushed milestone.

Just over 61,000 tonnes of cane was processed for the week, bringing the season total to more than 506,000 tonnes.

The major cause of lost time for the week was to carry out repairs to a gearbox on the bagasse bin hoist drive.

During the stoppage, the opportunity was taken to complete some of the work planned for a 12-hour cleaning intermission scheduled for Tuesday 17 August.

Overnight showers mid-week had minimal impact on cane supply. However, the rain provided a welcome boost for recently planted crops.

Weekly CCS remained static, nudging the season-to-date CCS up slightly to 13.48 units.

The highest CCS was 17.20 units from a rake of Q183 Plant from the Mainline productivity district.
