Comments:

Plane Creek Mill crushed just over 62,000 tonnes of cane for the week, bringing the season total to 860,460 tonnes.

The major cause of lost time for the week was to conduct repairs on the prepared cane elevator. The opportunity was taken to change the shredder tips during the stoppage.

Average weekly CCS was 15.23, down slightly from 15.45 the previous week.

Average bin weight remained steady at 4.03 tonnes.

The highest CCS recorded for the week was 17.00 from a rake of Q240 1R in the Ilbilbie productivity district.
