

## Weekly production figures

### Wilmar Sugar Plane Creek Mill Week 23, Week ending 20 November 2021

	This week	Season to date
<b>Cane crushed</b>	61,958	1,285,565
Average bin weight	3.82	3.95
<b>CCS</b>	14.58	14.44

#### Cane variety performance for region

Variety	%	CCS	Variety	%	CCS
Q183	31.3	15.22	Q242	4.0	13.14
Q208	28.5	14.66	Q258	2.6	14.66
Q240	15.9	14.30	KQ228	1.6	14.44
Q138	8.3	13.36	Q252	1.3	13.48

#### Comments:

Plane Creek Mill crushed just shy of 62,000 tonnes of cane for the week.

That brought the season-to-date total to more than 1.28 million tonnes, which represents 93 per cent of the forecast 1.39 million tonne crop.

Throughput was disrupted on Monday due to issues with the massecuite re-heater and associated pump.

CCS edged higher by 0.25 of a unit over the previous week and the season-to-date CCS closed out at 14.44.

The highest CCS for the week was 17.00 units from a rake of Q200 3R in the Bolingbroke productivity district.

Subject to weather and mill performance, harvesting operations at Plane Creek are expected to finish on Friday 3 December.

As we near the end of the 2021 season, I'd like to remind all road users to approach all cane rail crossings with caution.

Please use your train brain and always give way to cane trains.
