

## Weekly production figures

### Wilmar Sugar Proserpine Mill Week 25, ending 17 December 2022

	This week	Season to date
Cane crushed	59,696	1,641,175
Average bin weight	9.20	9.62
CCS	11.40	13.91

#### Cane variety performance for region

Variety	%	CCS	Variety	%	CCS
Q240	28.18	11.33	Q232	3.97	10.23
Q183	26.81	11.51	KQ228	3.02	11.78
Q208	18.52	11.88	Q238	2.48	11.22
Q242	6.49	9.27	Q138	1.37	6.73

#### Comments:

Proserpine Mill crushed just under 60,000 tonnes of cane for the week, which was below budget due to challenging field conditions following widespread rain.

There was an unplanned stop due to issues with the No.4 boiler. Crews worked around the clock to bring the boiler back online the next day.

The average weekly CCS fell 1.37 units from the previous week, coming in at 0.50 units under forecast.

The highest CCS sample was 14.35 units from a rake of Q183 ratoon in the Lethebrook Productivity District.

Growers are reminded that the 2023 farm forecast maps have been uploaded to GrowerWeb. Please update these with any changes for the 2023 crushing season. Contact the Proserpine Logistics Officer with any queries.

With the risk of additional rainfall, Wilmar has decided to crush through the Christmas holiday period, provided there is adequate supply.

With school holidays under way, we ask parents and carers to remind children that cane trains will continue to operate into January this season.

Please keep your train brain switched on. Be alert, stay off our rail network and always give way to cane trains.
