CCS	13.21	13.22

Cane variety performance for region

Variety	%	CCS	Variety	%	CCS
Q240	19.87	11.73	Q253	10.19	13.33
Q183	19.16	13.18	Q242	7.39	12.35
KQ228	16.52	13.73	SRA21	2.60	13.67
Q208	15.39	13.97	SRA9	2.34	12.26

Comments:

Throughput for the week was 75,960 tonnes, which was more than 3,000 tonnes above budget. Factory performance has been improving noticeably week by week. The biggest disruptions during week three were caused by issues with the lime system and liquor ups.

CCS results are also trending around half a unit above budget, at 13.21. The highest CCS sample was 15.65 from a rake of ratoon Q183 in the Lethebrook productivity district.

Please remember to “use your train brain” and always take care around our cane rail network. Our cane trains are working around the clock, seven days a week.

With school holidays still under way across Queensland, we urge parents and guardians to remind their children about the dangers of playing on or near the cane rail network.
