

Weekly production figures

Wilmar Sugar Proserpine Mill Week 4, ending 8 July 2023

	This week	Season to date
Cane crushed	23,053	161,065
Average bin weight	9.49	9.61
CCS	13.49	13.26

Cane variety performance for region

Variety	%	CCS	Variety	%	CCS
Q183	24.03	13.52	Q253	6.26	13.19
Q240	21.47	14.17	Q242	3.30	12.37
KQ228	17.04	14.03	Q226	2.83	13.97
Q208	16.25	13.82	Q252	1.67	14.23

Comments:

Crushing operations for the week were severely affected by a rain event that halted cane supply from Tuesday through until Saturday. Throughput was well below budget as a result. Harvesting operations resumed on Saturday, with the mill restarting production on Sunday.

CCS results are still trending above budget, sitting at 13.49 units. This may be affected in the upcoming week, as field conditions recover from the rain event. The highest CCS sample for Week 4 was 16.02 from a rake of ratoon Q183 in the Elaroo productivity district.

Please remember to "use your train brain" and always take care around our cane rail network. Our cane trains are working around the clock, seven days a week.

Now that school holidays have ended, we wish to thank all parents and caregivers for their part in keeping their children safe and off the cane rail network. Please continue to remind them to stay clear as they travel to and from school.
