Comments:

Sporadic showers fell throughout the week which, on top of the previous week's wet weather, prevented field conditions from drying out enough to enable harvesting. As such, no cane was processed during Week 8.

The factory is planning to restart operations on Monday, 7 August.

Residents are reminded that loco movements continue even during wet weather shutdown periods, so please continue to take care at cane rail crossings and ensure that children stay well away from the cane rail network.
