

Weekly production figures

Wilmar Sugar Proserpine Mill Week 9, ending 12 August 2023

	This week	Season to date
Cane crushed	63,943	402,577
Average bin weight	9.75	9.66
CCS	13.98	13.59

Cane variety performance for region

Variety	%	CCS	Variety	%	CCS
Q183	26.33	14.00	kQ228	6.83	14.35
Q208	24.94	14.30	SRA9	3.93	13.87
Q240	17.38	14.03	Q253	3.80	13.76
Q232	7.10	13.78	Q242	2.03	9.90

Comments:

While showers still fell during the week, several areas had dried enough to allow the mill to commence processing from Monday onwards.

Just shy of 64,000 tonnes of cane were processed for the week. This was below budget due to the impact of wet weather.

Despite the wet weather, CCS managed to come in 0.08 units above budget at 13.98. The highest CCS sample for the week was 16.06 from a rake of ratoon Q208 in the Gunyarra productivity district.

Some impressive bin weights have also been coming through, with Saturday recording an average of 9.91 tonnes of cane per bin for the day's loading.

As always, please remember to use your train brain and take care around our cane rail network. Our cane trains are working around the clock, seven days a week.
