Comments:

Proserpine Mill processed just over 72,500 tonnes for the week.

This was below budget due to a scheduled maintenance stop being extended to perform some necessary repairs to Boiler 4.

Average weekly CCS came in under budget at 14.02 units.

The highest CCS was 16.50 from a rake of ratoon Q208 from the Kelsey Creek productivity district.

Proserpine's crop forecast has been revised down slightly to 1.75 million tonnes.

Please remember to use your train brain and always take care around our cane rail network. A fully loaded cane train can take up to one kilometre to pull up. Our cane trains work around the clock, seven days a week.
