

## Weekly production figures

### Wilmar Sugar Proserpine Mill Week 13, ending 9 September 2023

	This week	Season to date
Cane crushed	80,838	739,389
Average bin weight	9.64	9.71
CCS	13.82	13.79

#### Cane variety performance for region

Variety	%	CCS	Variety	%	CCS
Q240	34.01	13.88	KQ228	3.20	14.18
Q208	19.98	13.89	SRA9	3.10	13.74
Q183	19.46	13.86	SP80	2.71	12.29
Q253	6.20	14.09	Q247	1.53	11.28

#### Comments:

Proserpine Mill processed just over 80,800 tonnes for the week.

This was below budget, due mainly to the effects of a power outage from an external issue, a choke in the milling train from processing poor quality cane, and some equipment issues.

Average weekly CCS came in under budget at 13.82 units, likely due to the higher level of standover that was processed during the week.

The highest CCS was 16.26 from a rake of ratoon Q208 from the Kelsey Creek productivity district.

Some light showers were experienced towards the end of the week, however harvesting operations were largely unaffected.

Please remember to use your train brain and always take care around our cane rail network. A fully loaded cane train can take up to one kilometre to pull up. Our cane trains work around the clock, seven days a week.
