

Weekly production figures

Wilmar Sugar Proserpine Mill Week 14, ending 16 September 2023

	This week	Season to date
Cane crushed	75,424	814,813
Average bin weight	9.61	9.70
CCS	14.37	13.84

Cane variety performance for region

Variety	%	CCS	Variety	%	CCS
Q208	28.31	14.51	SRA9	8.71	14.21
Q240	17.62	14.01	Q232	5.01	14.58
KQ228	10.34	14.71	Q253	2.88	14.00
Q183	9.04	14.46	Q247	2.51	14.01

Comments:

Proserpine Mill processed just over 75,400 tonnes of cane for the week.

This was below budget, due mainly to an extended maintenance stop and some liquor ups.

Showers appeared to be looming at times during the week but did not eventuate, leaving operations unaffected.

Average weekly CCS came in at 14.37 units. Although this was under budget, it was an increase of over half a unit on the previous week and the highest weekly CCS for the season, to date. A large proportion of standover is currently being processed, which is affecting the average CCS figure.

The highest CCS was 16.79 from a rake of ratoon Q208 from the Gunyarra productivity district.

With school holidays now under way, parents and guardians are reminded to talk to their children about the dangers of playing on or near our cane rail network.

Please remember to use your train brain and always give way to cane trains. A fully loaded cane train can take up to one kilometre to stop.
