

Weekly production figures

Wilmar Sugar Proserpine Mill Week 15, ending 23 September 2023

	This week	Season to date
Cane crushed	91,263	906,086
Average bin weight	9.75	9.71
CCS	14.77	13.93

Cane variety performance for region

Variety	%	CCS	Variety	%	CCS
Q208	26.53	14.71	Q253	3.88	14.35
Q240	21.28	14.63	KQ228	3.66	15.25
Q183	10.51	15.37	Q232	1.69	12.56
SRA9	8.78	14.66	Q247	1.48	14.88

Comments:

Proserpine Mill processed more than 91,200 tonnes of cane for the week.

This was more than 5,000 tonnes above budget, reflecting a fantastic effort from all sectors of the industry.

Proserpine Mill has officially passed the halfway mark, with more than 50 per cent of their estimated 1.75 million tonne crop processed for the season to date.

Average weekly CCS has increased again, coming in at 14.77 units. This was under budget, but only by a narrow margin. A large proportion of standover is currently being processed, which is affecting the average CCS figure.

The highest CCS was 17.05 units from a rake of plant Q208 in the Kelsey Creek productivity district.

With school holidays still under way, parents and guardians are reminded to talk to their children about the dangers of playing on or near our cane rail network.

Please remember to use your train brain and always give way to cane trains. A fully loaded cane train can take up to one kilometre to stop.
