

## Weekly Production Figures

### Wilmar Sugar and Renewables Proserpine Mill Week 3, ending 13 July 2024

	This week	Season to date
Cane crushed	64,985	102,320
Average bin weight	9.56	9.57
CCS	13.24	13.30

#### Cane variety performance for region

Variety	%	CCS	Variety	%	CCS
Q208	25.5	13.24	SRA9	2.4	12.60
Q183	20.7	13.17	Q190	2.2	12.94
Q240	20.5	12.92	Q238	2.1	13.65
KQ228	16.5	13.84	Q253	2.0	13.50

#### Comments

Proserpine Mill processed just under 65,000 tonnes of cane for the week.

This was below budget due mainly to the impact of an external power outage. There were also interruptions to cane supply on the southern main line due to an electrical failure on one of our locos.

Average weekly CCS came in above budget at 13.24 units.

The highest CCS was 16.21 units from a rake of KQ228 plant from the Elaroo productivity district.

We experienced some light showers in the early part of the week. However harvesting operations were mostly unaffected.

A planned maintenance stop is scheduled for mid-next week.

Please continue to always watch for cane trains, and only cross the cane rail network at designated crossings.

Our cane trains work around the clock, seven days a week.
