Comments

Proserpine Mill processed just over 73,300 tonnes of cane for the week.

This was slightly below budget due mainly to an extended stop caused by industrial action last Thursday.

Average weekly CCS came in above budget at 13.67 units.

The highest CCS was 15.81 units from a rake of ratoon KQ228 from the Lethebrook productivity district.

A planned maintenance stop is scheduled for mid-next week.

Remember that a fully loaded cane train can take up to 1 kilometre to pull up.

Our cane trains work around the clock, seven days a week, so please continue to use your train brain and always take care around the cane rail network.
