#### Comments

Proserpine Mill processed just under 88,000 tonnes for the week. This was above budget for the third consecutive week and the highest weekly throughput for the year.

Average weekly CCS came in below budget at 14.18 units.

The highest CCS was 16.66 units from a rake of ratoon Q240 from the Lethebrook productivity district.

With school holidays now under way, parents and guardians are reminded to talk to their children about the dangers of playing on or near our cane rail network.

Please only cross cane rail lines at designated crossings and always look for cane trains before proceeding.

Our cane trains work around the clock, seven days a week, so please continue to use your train brain and always take care around the cane rail network.
