CCS	14.59	13.95

#### Cane variety performance for region

Variety	%	CCS	Variety	%	CCS
Q240	22.4	14.38	Q253	8.6	14.12
Q208	18.8	14.85	KQ228	3.0	14.62
SRA9	15.9	14.82	SRA21	2.0	14.04
Q183	12.7	15.05	SP80	1.8	13.83

#### Comments

Proserpine Mill processed just over 88,000 tonnes of cane for the week – the highest weekly throughput for the season. We have now passed the halfway mark for the 2024 season.

The average weekly CCS came in above budget at 14.59 units.

The highest CCS was 16.84 units from a rake of plant Q208 from the Lethebrook productivity district.

Now that school holidays have come to a close, we wish to thank members of the public for helping to achieve an incident-free holiday period.

Please only cross cane rail lines at designated crossings and always look for cane trains before proceeding.

Our cane trains work around the clock, seven days a week, so please continue to use your train brain and always take care around the cane rail network.
