Comments

Proserpine Mill processed just over 86,500 tonnes for the week, which was above budget despite an extended stop due to an electrical failure in the factory.

Average bin weights dropped slightly to 9.35 tonnes for the week.

Average weekly CCS came in above budget, at 14.30 units.

The highest CCS sample of 16.86 units was from a rake of SRA9 plant cane in the Up River productivity district.

Please remember to cross cane rail lines at designated crossings only and always check for cane trains before proceeding.

Our cane trains work around the clock, seven days a week, so please use your train brain and always take care around the cane rail network.
