CCS	15.06	14.01

Cane variety performance for region

Variety	%	CCS	Variety	%	CCS
Q208	20.7	15.29	Q253	12.4	14.89
SRA9	16.9	14.90	Q252	1.7	15.75
Q183	15.3	15.26	KQ228	1.3	14.65
Q240	12.6	14.99	Q247	1.2	15.57

Comments

Proserpine Mill processed just under 72,000 tonnes for the week. Throughput was below budget, mainly due to a scheduled cleaning intermission and a stop to repair the forced draft fan on Boiler 4.

The factory officially passed the 1 million tonnes crushed mark during the past week and has now processed a total of 1.026M tonnes, season to date.

Average weekly CCS came in above budget, at 15.06 units.

The highest CCS sample of 17.76 units was from a rake of Q252 plant cane in the Lethebrook productivity district.

Now that the school holidays have commenced, we ask parents and guardians to remind their children about the dangers of playing on or near the cane rail network.

Please remember to cross cane rail lines at designated crossings only and always check for cane trains before proceeding.

Our cane trains work around the clock, seven days a week. Use your train brain and always take care around the cane rail network.
