Variety	%	CCS	Variety	%	CCS
Q240	30.9	15.12	Q253	3.5	14.00
Q208	21.9	15.66	KQ228	2.8	15.56
Q183	15.6	15.66	Q252	1.5	15.50
SRA9	5.1	14.80	SP80	1.5	14.81

Comments

Proserpine Mill processed just over 64,400 tonnes for the week. This was the last cane processed for the 2025 season and the last bin was tipped at 6.31am on Saturday 1 November.

Proserpine Mill processed just under 1.48 million tonnes of cane for the 2025 season.

Average weekly CCS came in above budget, at 15.33 units. The provisional season CCS was also above budget at 14.42 units.

The highest CCS sample for the week of 17.90 units was from a rake of Q183 ratoon cane in the Lethebrook productivity district.

I would like to acknowledge all Proserpine Mill employees, growers and harvesting contractors for their contributions in processing this year's crop.

On behalf of the team at Wilmar Sugar and Renewables, thank you for your cooperation during the 2025 season.

Although the production season has ended, loco movements will continue over the next few weeks as we carry out bin maintenance.

Please continue to use your cane brain and approach all cane train crossings with caution.

Peter Luke
