Comments

Proserpine Mill processed close to 61,000 tonnes of cane for the week bringing the season total to 271,446 tonnes.

Throughput was below budget, mainly due to an extended stop to repair a tube leak in Boiler 4.

Average weekly CCS came in above budget, at 13.99 units.

The highest CCS sample for the week was 16.08 units, from a rake of Q240 plant cane in the Elaroo productivity district.

With school holidays ending across Queensland, we want to thank all parents and caregivers for keeping their children safe and away from our cane rail network.

Please remember to cross cane rail lines at designated crossings only and always check for cane trains before proceeding.

Our cane trains work around the clock, seven days a week. Use your train brain and always take care around the cane rail network.
