Comments

Proserpine Mill processed close to 77,600 tonnes of cane for the week, bringing the season total to 424,884 tonnes.

Throughput was above budget in a week that included an extended stop to repair a failed gearbox on a critical boiler ash conveyor.

Average weekly CCS came in above budget, at 14.09 units.

The highest CCS sample for the week was 16.55 units, from a rake of Q252 ratoon cane in the Elaroo productivity district.

Please remember to cross cane rail lines at designated crossings only and always check for cane trains before proceeding.

Our cane trains work around the clock, seven days a week. Use your train brain and always take care around the cane rail network.
