Q253	14.4	14.36	Q238	1.6	15.05

Comments

Proserpine Mill processed close to 65,000 tonnes of cane for the week, bringing the season total to 489,835 tonnes.

Throughput was below budget in a week that included an extended stop to carry out a repair on a critical bagasse reclaimer.

Average weekly CCS came in above budget, at 14.49 units.

The highest CCS sample for the week was 17.06 units, from a rake of Q183 ratoon cane in the Lehtebrook productivity district.

Our cane trains work around the clock, seven days a week, so please continue to use your train brain and always take care around the cane rail network.

It is up to drivers, cyclist and pedestrians to give way at rail crossings. Always obey crossing signals, warning lights and signage and never attempt to cross if a train is approaching.
