Q240	28.5	14.15	SRA9	5.6	14.19
Q208	23.9	14.16	Q253	4.7	13.05
Q183	14.3	14.43	SRA12	2.6	13.05
KQ228	6.1	14.53	SRA21	1.3	13.28

Comments

Proserpine Mill crushed out on Friday 23 October, bringing an end to the 2026 season. The last bin was tipped at 4.55pm.

The factory processed close to 44,280 tonnes of cane for the final week of the season, bringing the season-to-date total to more than 1.425M tonnes.

Average weekly CCS came in above budget, at 14.15 units.

The highest weekly CCS sample for the week was 16.67 units, from a rake of SRA9 ratoon cane in the Kelsey creek productivity district.

I would like to acknowledge all Proserpine Mill employees, as well as growers and harvesting contractors, for their contribution in getting this year's crop processed.

On behalf of the team at Wilmar Sugar and Renewables, thank you for your cooperation during the 2026 season.

Although the production season has ended, loco movements will continue over the next few weeks as we carry out bin maintenance.

Please continue to use your cane brain and approach all cane train crossings with caution.
