

## Weekly production figures

### Wilmar Sugar Proserpine Mill Week 3, ending 18 July 2020

	This week	Season to date
Cane crushed	88,903	193,001
Average bin weight	9.38	9.22
CCS	12.99	12.70

#### Cane variety performance for region

Variety	%	CCS	Variety	%	CCS
Q240	29.61	13.05	Q232	8.92	12.42
Q183	17.56	13.27	Q242	4.92	12.46
Q208	13.41	13.20	Q247	1.96	12.65
KQ228	10.75	13.15	Q253	1.53	12.91

#### Comments:

Proserpine Mill's weekly throughput was 88,903 tonnes – above budget and the best so far this season.

While some paddocks are still damp, field conditions have improved enough for harvesters to provide a good supply of cane. This has allowed the factory to settle into a more regular rhythm.

There is a major maintenance stop scheduled this Thursday to undertake necessary repairs.

The highest CCS sample was 15.78 from a rake of plant Q240 in the Waterson Productivity District

Please remember to always 'Use your train brain' and take care around our cane rail network. Near misses between motorists and cane trains continue to occur at our cane rail crossings.
