

Weekly production figures

Wilmar Sugar Proserpine Mill Week 4, ending 25 July 2020

	This week	Season to date
Cane crushed	40,814	233,815
Average bin weight	9.31	9.24
CCS	12.98	12.76

Cane variety performance for region

Variety	%	CCS	Variety	%	CCS
Q240	32.84	13.02	Q238	3.95	13.12
Q183	21.87	12.87	Q242	3.39	12.91
Q208	12.36	13.35	Q232	2.80	12.36
KQ228	7.28	13.11	Q138	1.49	12.02

Comments:

Proserpine Mill's weekly throughput was limited to 40,814 tonnes, due to the impact of rain on harvesting and crushing operations.

Field conditions were too wet for harvesting on Thursday and Friday. Harvesting resumed on Saturday with a reduced number of bins filled.

Major factory maintenance was undertaken to take advantage of the wet weather delay.

The highest CCS sample was 15.86 from a rake of plant Q240 in the Waterson Productivity District.

Please remember to "Use your train brain" and always take care around our cane rail network. Our trains are working around the clock, seven days a week.
