

## Weekly production figures

### Wilmar Sugar Proserpine Mill Week 7, ending 15 August 2020

	This week	Season to date
Cane crushed	52,824	434,141
Average bin weight	9.46	9.31
CCS	13.81	13.12

#### Cane variety performance for region

Variety	%	CCS	Variety	%	CCS
Q240	24.15	13.93	Q232	3.51	13.30
Q183	24.11	13.64	Q247	3.14	13.81
Q208	23.70	14.31	Q252	2.93	13.58
Q242	7.50	13.02	Q238	2.63	14.17

#### Comments:

Proserpine Mill's weekly throughput was restricted to just below 52,900 tonnes.

A wet weather event late in the previous week delayed the resumption of crushing until Monday morning.

There was an unplanned stop on Thursday to repair a boiler ash belt. Crews carried out other factory maintenance during the stoppage.

The highest CCS sample was 16.17 from a rake of first ratoon Q183 in the Kelsey Creek Productivity District.

Please remember to 'Use your train brain' and always take care around our cane rail network.

Be aware that, even after brakes are applied, cane trains require long distances to slow down and come to a complete stop.
