

## Weekly production figures

### Wilmar Sugar Proserpine Mill Week 9, ending 29 August 2020

	This week	Season to date
Cane crushed	90,339	622,830
Average bin weight	9.63	9.42
CCS	14.19	13.44

#### Cane variety performance for region

Variety	%	CCS	Variety	%	CCS
Q208	29.48	14.40	Q232	3.08	13.08
Q240	28.44	14.05	Q226	0.88	14.62
Q183	20.59	14.36	Q252	0.86	13.92
KQ228	5.41	14.60	Q242	0.65	14.11

#### Comments:

Proserpine Mill crushed 90,339 tonnes of cane for the week – the second time this season the factory has processed more than 90,000 tonnes.

Fine weather has continued, allowing harvesters to make the most of favourable field conditions.

There was a scheduled stop on Thursday to carry out mill roller arcing and high pressure cleaning of No. 4 boiler's induced draft fan.

CCS continues to improve, albeit steadily, with an average of 14.19 for the week.

The highest CCS sample was 16.3 from a rake of third ratoon Q208 in the Elaroo Productivity District.

Motorists please remember to always take care around our cane railway level crossings and 'Use your train brain'.

Cane trains can't swerve and they can't come to a quick stop. It's up to you to stay alert, obey signs and signals, and give way to cane trains.
