

Weekly production figures

Wilmar Sugar Proserpine Mill Week 16, ending 17 October 2020

	This week	Season to date
Cane crushed	91,626	1,254,640
Average bin weight	9.36	9.39
CCS	15.52	14.14

Cane variety performance for region

Variety	%	CCS	Variety	%	CCS
Q183	27.7	15.54	Q242	3.7	15.16
Q240	26.4	15.24	Q247	2.1	15.36
Q208	23.1	16.06	Q138	1.2	15.57
Q232	4.0	15.16	Q190	1.0	16.47

Comments:

Proserpine Mill processed close to 92,000 tonnes of cane for the week – another good weekly throughput.

The last day of harvesting for the 2020 season is currently expected to be Wednesday 11 November. This is based on an expected final crop of 1.58 million tonnes, budgeted factory throughputs and no further rain disruptions.

Harvesting conditions remain favourable and the crop is cutting at just below 99% to estimate.

Weekly CCS jumped again by more than 0.25 of a unit to 15.52.

The highest CCS sample was 18.04 from a rake of first ratoon Q208 in the Elaroo Productivity District.

Remember to use your 'train brain' around our cane rail network. Approach all level crossings with caution and always give way to cane trains.
