

Weekly production figures

Wilmar Sugar Proserpine Mill Week 20, ending 14 November 2020

	This week	Season to date
Cane crushed	50,180	1,535,795
Average bin weight	8.81	9.33
CCS	14.63	14.35

Cane variety performance for region

Variety	%	CCS	Variety	%	CCS
Q183	27.43	14.92	Q232	6.50	14.31
Q208	25.53	15.00	Q238	2.48	15.18
Q240	18.00	14.36	Q200	1.00	15.61
Q242	9.04	13.34	Q121	0.93	14.40

Comments:

Proserpine Mill processed just over 50,000 tonnes of cane for the last week of the season, bringing the total season throughput to 1.54 million tonnes.

Harvesting ceased for the 2020 season on Thursday 12 November and all cane was crushed by just after 2:30am on Friday 13 November.

Weekly CCS dropped to average 14.63 units, bringing the preliminary season CCS to 14.35 units.

The highest CCS sample was 16.84 from a rake of fifth ratoon Q208 in the Strathdickie Productivity District.

I'd like to thank all growers and harvest contractors for their hard work and cooperation during the 2020 season.

I'd also like to recognise Proserpine Mill employees for their safe operations during the year.

I can't stress enough the need to continue using your 'train brain'. Although the crushing season is over, our maintenance crews will continue to operate around the cane rail network.

Best wishes to all for the holiday season.

Tony Marino
Cane Supply Manager
Proserpine Region
