

## Weekly production figures

### Wilmar Sugar Proserpine Mill Week 2, ending 10 July 2021

	This week	Season to date
Cane crushed	68,714	80,976
Average bin weight	9.52	9.47
CCS	13.73	13.60

#### Cane variety performance for region

Variety	%	CCS	Variety	%	CCS
Q240	30.03	13.70	Q232	7.92	12.67
Q208	19.02	14.01	Q247	3.26	13.59
Q183	13.97	13.90	Q242	2.87	13.17
KQ228	12.94	14.44	Q253	2.77	13.68

#### Comments:

Throughput for the week was just below budget, with 68,714 tonnes of sugarcane crushed.

The factory has now settled in and daily throughputs have been normal since Thursday.

Average weekly CCS was 13.73 – an increase of 0.88 of a unit on the previous week.

The highest CCS sample was 15.71 from a rake of plant Q208 in the Glen Isla Productivity District.

I'd like to remind all road users in the district to 'Use your train brain' and please take care around our cane rail network.

Thanks to all members of the community for ensuring an incident-free school holiday period.
