

## Weekly production figures

### Wilmar Sugar Proserpine Mill Week 9, ending 28 August 2021

	This week	Season to date
Cane crushed	75,255	651,822
Average bin weight	9.61	9.59
CCS	14.95	14.26

#### Cane variety performance for region

Variety	%	CCS	Variety	%	CCS
Q240	30.63	14.70	Q247	2.09	15.31
Q208	28.06	15.23	Q242	1.69	14.01
Q183	19.01	14.83	Q253	1.37	15.01
KQ228	6.42	15.27	Q238	1.27	14.30

#### Comments:

The weekly throughput of 75,000 tonnes was below budget due to the requirement to shut down No. 3 boiler for necessary repairs. The boiler is scheduled to come back online this week.

CCS continues its steady climb upwards. Average weekly CCS was 14.95 – more than half a unit above budget.

The highest CCS sample was 16.95 from a rake of first ratoon KQ228 in the Gunyarra Productivity District.

Motorists and the general public should have seen or heard our safety message 'Use your train brain'. It's very important to heed this warning around our cane rail networks while the sugarcane crushing season is in full swing.

Cane trains can't swerve and they can't come to a quick stop. It's up to you to stay alert, obey signs and signals, and give way to cane trains.
