

## Weekly production figures

### Wilmar Sugar Proserpine Mill Week 10, ending 4 September 2021

	This week	Season to date
Cane crushed	24,391	676,213
Average bin weight	9.66	9.59
CCS	14.37	14.26

#### Cane variety performance for region

Variety	%	CCS	Variety	%	CCS
Q240	35.72	13.94	KQ228	1.67	13.71
Q183	27.72	14.47	Q124	0.52	14.42
Q208	27.12	14.72	-	-	-
Q232	1.95	15.13	-	-	-

#### Comments:

About 24,300 tonnes of cane was crushed for the week, which was well below budget due to a wet weather event on Monday evening and Tuesday.

The wet weather also caused CCS for the week to drop to 14.37 – about a quarter of a unit below budget.

Major factory maintenance was undertaken to take advantage of the wet weather stop, including the completion of repairs to the No. 3 boiler.

The highest CCS sample was 16.47 from a rake of plant Q183 in the Kelsey Creek Productivity District.

The travelling public is once again reminded to take care around our cane rail network and always give way to cane trains.
