Comments:

About 75,300 tonnes of cane were crushed for the week.

This was below budget due to the recent wet weather event that disrupted harvesting operations until last Sunday.

CCS for the week recovered to 14.79 – just above budget.

The highest CCS sample was 16.68 from a rake of fourth ratoon Q208 in the Kelsey Creek Productivity District.

With school holidays starting on Friday 17 September, we ask parents, carers and teachers to remind children about the dangers of playing on or around our cane rail network.

The travelling public is also reminded to 'Use your train brain' and always give way to cane trains.
